Subject: Notification of New Pipeline Construction
Resolute Forest Products (RFP) 12inch Looping Project

Dear Ms. Boyd:

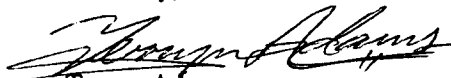

Patriots Energy Group (PEG), a joint action agency for Chester County Natural Gas Authority, Lancaster County Natural Gas Authority and York County Natural Gas Authority is working with our contractor, G. Campbell Construction, to loop approximately 3,800 feet of 6" with new 12" steel piping. This work is located in front of RFP's Catawba Plant in York County, SC. Specifically, the site is off Cureton Ferry Road, near the Highway 5 intersection (close to the Hwy. 5 Catawba River crossing).

Even over this short distance, the combined project cost is expected to exceed the \$500,000 threshold established in the Commission's Rules and Regulations 103-412 2.7A. under "New Construction".

Please consider this letter as notification that Patriots Energy Group will begin pipeline construction for this project within approximately one week. The expected time period for this installation work will be four months. PEG will copy the Office of Regulatory Staff (ORS) with this notification and will work with their office for any inspections or further correspondence desired.

If you have any questions, please contact me at (803) 323-5357.

Sincerely,

Terry Adams
Facilities Superintendent, PEG
